**Barmakers is a customer orientated company. You select, we do the rest!**

Bring your floorplan or measurements to our showroom, where based on your requirements we offer you our personal design and quotation service.

After you've made your decision to invest in a custom designed Bar or Wall Unit, we visit your home to measure and finetune the design. Together we co-ordinate the materials and colours to complement your decor and your lifestyle.

Final drawings and costing will then be discussed and an agreement signed before your unit is handcrafted in the factory by our highly skilled tradesmen, who also deliver and fit with the utmost care and minimal interruption to your busy life. We can co-ordinate electrical and plumbing work for you too!

All barmakers products are of the highest quality and value for money, fully guaranteed and backed by our after sales service.

At Barmakers, we are proud to work with a truly magnificent selection of solid Australian and imported timbers. We have the expertise to integrate materials like granite, exotic laminates, glass, leather, metals, paint finishes and imperite - just right to suit your individual taste.
